About This Game

Become an elite pilot of special Robot Squad.

Use specialized, remotely controlled robots, which you will control yourself.

Deal with the hardest missions which can't be performed directly by people due to the conditions.

Human life and safety is in your hands!

Game features:

- 4 different robots: 2 terrestrial, aerial and underwater
- 6 training missions
- 16 story missions which take place all over the world, in different settings
 - 10 different accessories mounted on robots
- plenty of gameplay elements like: guards, explosives, mechanisms
 - upgrading parameters of robots and accessories
- different types of missions: rescue, spy, exploration, military

this game needs more and more details

. i only had time to play a little, so far, no bugs, nice concept. i love the graphics. i recomend this game for anyone.. I love this game. Do yourself a favor, and eschew the third-person view for the more "simulator" experience in first-person. Otherwise, I can see why a lot of people said "meh". It's too easy in 3p, and ruins the idea of piloting a robot.. very good game :). Huge maps, various mission and innovative concept. Good game !. Please add game pad support. thank you.
